### Engineering, Software & Web Development

I am a professional Web Developer working in the Software and Web industry for a period of 6 years. I am skilled in coding, innovative designs, and layouts. I have the ability to work with a team to solve problems through interpersonal skills. As a developer, I can do modification to existing products or add new features. I have done Graduation in 2013 from Riphah International University. I have served a number of esteemed clients & companies. I am currently working as a Web Developer at Iplex. My expertise in Web Development includes: Collecting necessary information from the design team and translating into functional solutions Writing efficient, testable, and well designed code using best development practices Using standard CSS/ HTML practices to create user interface /website layout Turning responsive and effective design into a working theme Integrating data from various databases and back-end services Collect and refine specifications depending upon the technical needs, Creating and maintaining software documentation Matching visual design intent by cooperating with web designers Maintaining and scaling the website Applying emerging trends and new technologies into activities and operations Designing and implementing new features and functionality Establishing and guiding the website's architecture Contribute to cross-browser and cross-device testing to Ensuring consistent display in major supported browsers on android, iOS, PC, and Mac. Providing ongoing website support and enhancements after completion Knowledge of PHP back-end and wordpress Themes development with SQL Expertise in Cross-browser and Cross-platform issues Capability to transform layout and wireframes into efficiently working HTML pages Understanding about the Search Engine Optimization (SEO) process Ability to work with debugging tools such as Chrome inspector, Firebug, etc. Ability to solve complex problems and designs Over the years, I have worked with various companies. I have a strong portfolio of designing and developing responsive design websites. I have a strong understanding of content management systems. I am looking forward to work and grow together with clients & software houses using my developing skills. Sincerely, Syed Ahsan Abbas Kazmi
