## Address

House # 433 / 5-f block, Satellite Town,  
Rawalpindi

## PROFILE INFO

I started my career in the agency world where I was given an opportunity to work on some amazing private brands. With this experience in my back pocket, I was able to land the role of a Full Stack Developer at Iplex.

In my free time I enjoy spending time with friends and family. Daily I go for at least a one hour walk while listening to music on Soundcloud, this is where I get most of my creative ideas. I love fast Bikes and have a Ride2, one day I hope to own a BMW K1200S, in the meantime I'll keep working hard towards my dream.
