BACHELOR IN COMPUTER SCIENCE
Riphah International University, islamabad

DIPLOMA IN ASSOCIATE ENGINEERING
Swedish Institute of Technology

SYED AHSAN KAZMI
FULL STACK WEB DEVELOPER

PROFILE

I started my career in the agency world where I was given an opportunity to work on some amazing private brands. With this experience in my back pocket, I was able to land the role of a Full Stack Developer at Iplex.

In my free time I enjoy spending time with friends and family. Daily I go for at least a one hour walk while listening to music on Soundcloud, this is where I get most of my creative ideas. I love fast Bikes and have a Ride2, one day I hope to own a BMW K1200S, in the meantime I'll keep working hard towards my dream.

WORK EXPERIENCE

Sep 2019 - Present	Full Stack Developer
	Lab270 KY, US
